

Exercise 1

Create your personal web site. During its preparation it is necessary to meet the following requirements:

1. The document has to be prepared according to HTML 5 recommendation (do not miss DOCTYPE).
2. The whole personal web page will consist of 4 partial web pages with titles "About Me", "My schedule", "Attractions", "Contact".
3. You should focus on the logical structure of the page pointing to the semantic web, which means that it is necessary to use a new tags as <header>, <footer>, <nav>, <section>, <article>, etc.. You can use only tags and attributes that are allowed to use in HTML5.
4. Each page will contain two levels of headings.
5. Navigation among partial web pages has to be solved using non-numeric list. Design the horizontal navigation panel using CSS.
6. Subpage "About Me" will include
 - a. 1-2 paragraphs that will describe you personally. They can be focused on your personal hobbies or work at school.
 - b. include your photo. Be sure to include attributes "alt", "height" and "width" in the image tag. The text should round around the photo.
 - c. one non numbered list (e.g. with activities, subjects, ...)
 - d. one quotation from somebody known that you like. It is recommended to use <aside> tag for this text. The quotation should be placed on the web page properly (see pictures below).
7. Subpage "My schedule" will contain your personal time schedule during the whole week. The schedule will be prepared as a table – rows will represent days in the week (Monday, Tuesday, ... Sunday), columns will represent hours during the day from 7:00 till 21:00. One hour activity will be marked by the filling the background color of a table cell. For two or more hour activities it is necessary to use "colspan" or "rowspan" attribute.
8. Subpage "Attractions" will include information about two interesting places that you recommend me to visit. They can be e.g. from your home country. It is necessary to make short description of these places and also to explain me how can I reach these places. Introduce also some links where I can find some more information. These two articles should be placed in two columns (do not use table layout for this arrangement).
9. Subpage "Contact" will include your contact information, with the emphasis on electronic option of contacting. It is recommended to use <address> tag where it is appropriate.
10. Do not forget to give a title to the entire site.
11. The webpage should be validated using W3C validator.
12. The layout of the web page should be designed only using CSS styles that will be defined in one external CSS file.

Był niezadowolony z tej sytuacji, co musiał, jak pociąg, czekać na przebieg rozmowy. Kiedy przyszedł, był już ciemno, podał mi swój kuferek z piernikami i rysem, na co stwierdził, że nie ma nic do powiedzenia. Wziąłem kuferek i powiedziałem, że nie mam nic do powiedzenia. Wziąłem kuferek i powiedziałem, że nie mam nic do powiedzenia.

V ďalšej firme som sa zaslúžil na to a po 60 minútach som sa vrátil domov. Keďže som predtým nikdy športu nebol, bol som veľmi unavený a bol som veľmi hladný.
